ture of the corporation's new policy. The manifold duties and responsibility that were shouldered by President Huntington during his/life will henceforth be shared by two officers. Charles H. Tweed, as chairman of the board, will conduct financial affairs in New York, and look after the physical properties. Haya, as president, will become the executive operating official of the company, with headquarters in this city.

Just how this arrangement will dis-

become the executive to this city.

Just how this arrangement will disturb the economy of affairs in the general office of the company, and in the various departments throughout the big system, is a matter that will furnish much food for speculation. A spirit of uneasiness not known in many years now animates officials and employes. Haye has been selected for the presidency because of his superior ability as a railroad manager, and new ideas and new methods will be employed. He may be expected to remove the cause of the company's extreme unpopularity on the Coast, and radical changes in the company's personnel and in the methods of doing business may be necessary to accomplish this vesuit.

It thus happens that the advent of Hays is provoking widespread uneasiness, and Southern Pacific officialdom is experiencing a feeling of uncertainty that no one could have foreseen at the death of Huntington's death has brought about a bigger revolution in the affairs of the Kentucky corporation than those closest in touch with the workings of the company ever imperied would be the case. The story that the company has passed under the control of Vanderbilt and his colleagues is not credited here by the railroad officials. All that is known here is that under Tweed's administration the new policy of the

for Congress.

Enlarges the Difficulties and Cost of the Work.

One Lock Alone the Biggest Engineering Feat in the World's History.

WASHINGTON, Oct. 26.—[Exclusive Dispatch.] The statement can now be made almost positively that the report of the Isthmian Canal Commission will be ready for transmission to Congress on its opening day, December 3. Reports have been industriously circulated about the country that this report would not be ready for Congress until some time next spring, and that therefory no canal legislation was likely during the coming winter. The statement that the report would be ready for Congress at the beginning of the session is made upon the authority of a member of the commission, who says the document is already nearly completed. Later there will be a supplementary report, containing a great mass of scientific data, but this will be quite apart from the main report, which will contain a discussion of the two canal routes, Nicaragua and Panama, and will recommend to Congress which one should be chosen by the United States.

high that the men working upon it will operate in four different atmospheres, and, at very least calculation, the commission says, it is going to take twelve years for this one piece of work alone. They find, however, that this lock is the greatest task in the way of the completion of the canal, and that by the time it is completed, the whole canal ought to be about ready for operation. From their calculations, it appears that if Congress at the next session should authorise the beginning of the work, it would be practically fitteen years before the canal could be opened to traffic.

The estimated cost is put up very much by the report. The previous estimates have shown the total cost of digging the canal to be from \$120,000,000 to \$100,000,000. This commission estimates that the very least sum needed will be \$200,000,000. The report is bound to cause a chill to many canal enthusiants.

will be \$200,000,000.

The report is bound to cause a chill to many canal enthusiasts, both regarding the time needed for the completion of the work and the estimated cost. The canal bill which passed the House of Representatives last winter appropriated \$120,000,000, and some fault was found that this sum was excessive.

CHICAGO, Oct. 26.—[Exclusive Dispatch.] The capital of Armour & Co. is to be increased from \$20,000,000 to \$35,000,000, the additional securities being issued to cover the great Armour plant at Kansas City, which heretofore has a kansas City, which heretofore has at Kaneas City, which heretofore has not been a part of the Armour corporation at Chicaro. The increase will take place within a week and will be simultaneous with some changes in the directory. The Kaneas City Armours, nephews of Philip D. Armour, who have built up a huge business in the West, will become directors of the new consolidated Armour concern. It will be still entirely an Armour affair, with no outsiders interested except those at the heads of departments and occupying places as directors in the Chicago corporation.

The ex-Pugilist Undergoes an Operation for Hernia to Save His life.

IST DIRECT WIRE TO THE TIMES!

NEW YORK. Oct. 26.—[Exclusive Dispatch.] John L. Sullivan has been aghting the enemy of a lifetime on the operating table of the Polycitnic Hospital, and the oid gladiator has won. Game as ever, the ponderous figher walked into the hospital to undergo the operation his physician said was necessary to save his life.

"If it's got to be done," he said, "it's got to be done, so you might as well plug away."

The case was one of congenital hernia, and every day increased the risk of strangulation. The operation was a complicated one, owing to Sullivan's heavy build and active life, but he came through it well. He was put under an anesthetic, and the operation was performed by Dr. J. A. Bedine.

Sullivan is lying on his back on the hospital bed, looking pale, but happy. "I'm suffering a little pain," he said, "but that's nothing to being trussed up here on my back."

The hospital surgeons say Sullivan has been afflicted since birth, and express wonder that 'he puglist should have lived to fight so many battles. It will be four or five weeks before he can leave the hospital.

# AMERICAN ARMY TO BE REDUCED.

BY THE NEW ASSOCIATED PRESS-P.M.)

JEW YORK, Oct. 26.—The Republican National Committee issued a statement concerning the United States army today, which

"Reports received from the War Department at Washington by the Republican National Committee give news of the gradual reduction of the forces of occupation. Gen. Davis, commanding the army in Porto Rico, recommends that the troops on that island be withdrawn entirely.

"Orders have been issued for the reduction of the troops in China, and plans made for their final withdrawal. It is hoped that when the election is over, the situation will improve sufficiently in the Philippines to warrant a material reduction of force there.

"Secretary Root recently called attention to the fact that, in the fall of 1898, when President McKinley recommended the retention of 100,000 men in the army, he was arguing for a decrease and not an increase, for then there were 272,000 men in the service. The war with Spain was not ended, for the peace treaty had not been ratified. In the meantime, people should remember that unless there is further legislation on the subject, the army will drop back to its former limit of 27,500 men next July, which is only onethird of what it was in proportion to the size of the country, so great has been the growth in

there was more or less delay and the first columns, scheduled to arrive about 7:26 o'clock, were from ten minutes to three-quarters of an hour late. But when they did finally begin to converge on the square, there was a spectacle which is seldom seen. By 9 o'clock every street seemed to lead to Maitison Square, and from every thoroughfare came tens and tens of thousands. They had torches and transparencies and flags and dinner pails and enthusiasm. It is estimated that about fifty thousand persons took part in the parades.

Around Madison Square, the groups marched and counter-marched and cheered and sang and shouted. Tons of fireworks were burned, and it was only when completely tired out that the many groups broke up and after a while went home. A few of the paraders stopped for a moment or two to hear the spellbinders and some of the curtier arrivals tried to get into the girden. Very few succeeded, as the building was filled to its fullest capacity long before.

Roosevelt Points Out the Wrong Remedy for Trust Evil at Amsterdam.

IBY THE NEW ASSOCIATED PRESS—A.M.)

AMSTERDAM (N. Y.) Oct. 26.—The first stop of the Roosevelt special train on its run to New York was made here. For the few minutes that he talked, Gov. Roosevelt took up the trust problem, calling the attention of his auditors to Bryan's statement that he would remove the tariff from all articles manufactured here by so-called trusts. There are large carpet factories here, and the Governor asserted that if Bryan's theory were put in practice, while it might result in the destruction of the trust, it would also result in throwing all of the workers out of occupation. He said in part:

"It is of course true that there are men who work hard and get less than they ought to, and it is equally true that there are others who receive in excess of what they should. That is a fault that is perhaps possible to remedy, and I will join in any remedy according to the light that is in me. Ac-

Closing Day in New Jersey a Successful One—Deries He Sells His Gab.

NEW YORK, Oot. 28.—William J. Bryan today concluded his campaign tour of the State of New Jersey. The day was a successful one in that the crowds which he addressed were both attentive and of a fair size, but the majority of them were neither so large nor as demonstrative as those of New York. Today was given up to a section of New Jersey which is populated largely by people whose business is in New York City.

The tour was made ever the Delaware and Lacksawanna Railroad, the most distant point toushed being Dover, forty miles south of New York. The other towns at which speeches were made were Hoboken, Harrison, Orange, Summit, Morristown, Boonetown, Paterson, Belleville and Newstrk, three speeches being made at the latter place. In reality Bryan's Thursday work extended into today for he did not retire this morning until about 3 o'clock a. m., and one of the most enthusiastic meetings of last light was the last of the series. When he reached his hotel in Hoboken, after his carriage tour of the sity, he found 500 German citizens twaiting his arrival. They insisted apon tendering him a serenade and ang several of the songs of the Fatheriand. Bryan expressed himself is highly gratified with the New Jersey campaign. Bryan will make a orief run into Connecticut tomorrow, peaking at New Haven and Mridgeort, and will return to participate in New York City tomorrow night.

ARRIVES AT NEWARK.

Bryan arrived at Newark a few minutes past 7 o'clock tonight and here the scenes which were witnessed in Jersey City last night were repeated on a somewhat smaller scale. The streets were thronged with people and the pathway of the Democratic standard-bearer was illuminated with green fire. He was first driven to the residence of ex-Senator James Smith, where he took dinner. In front of the Smith mansion a vast multitude of people were assembled, and they cheered heartly when Bryan and his secort of committeemen and marching clubs arrived at that point.

The speeches in this city were made successively at Archer Park, Kruger Auditorium and the baseball grounds, the principal address being that at the auditorium. The meetings were all largely attended and applause greeted him at every turn.

PEACEFUL END IN SIGHT.

PEACEFUL END IN SIGHT.

BY THE NEW ASSOCIATED PRESS P.M.;

VALLEYFIELD (Que.,) Oct. 25.—

The evening passed off without the slightest disturbance. Two hundred men belonging to the Sixty-fifth Battalion arrived from Montreal at 10 c'clock, bringing the number of men on duty up to 50.

The soldiers were kept inside the mill inclosure. The people are very anxious that the troops should be withdrawn. A meeting of the council and justices of the peace was held tonight, and understanding given that if the troops were withdrawn peace, would be preserved. This will be accepted, and the trouble will epd without serious blood-shed.

Thirty Shoe Manufacturers' Factories Closed as Result of Difficulties With

turers.

The trouble grew out of the refusal of a union man to work for weekly wages/instead of piece work. He was discharged and a non-union man engaged. As a result, all the men in the factory went out. The manufacturers' committee thereupon decided to shut down until a better understanding is obtained.

ARMOR CONTROVERSY GOES OVER.
WASHINGTON, Oct. M.—The adjustment of the controversy between the Navy Department and the armorpiate companies over the price of armor plate probably will go over until after the return of Secretary Long from Colorado, as there is no prospect of his being able to dispose of the amount before his departure, This trip will probably consume ten days and then the Secretary will go to Massachusetts to vote.

TWO MILLIONS FOR RELIEF.

Miss Lockheart's LETTER TO MRS. PINKHAM.

"I cannot express my gratitude to you for the good that Lydia E. Pinkham's Vegetable Compound has done for me. I have taken five bottles of the Compound and two boxes of Liver Pills and feel better in every respect. I had suffered for years with drops; the veins in my limbs burst, caused from the pressure of the water. I had the worst kind of kidney trouble, fainting spells, and I could not stand long at a time. I also had female weakness and the dootor said there was a tumor in my left side. The pains I had to stand were something dreadful. A friend handed me a little book of yours, so I got your medicine and it has saved my life. I felt better from the first bottle. The bloating and the tumors have all gone and I de not suffer any pain. I am still using the Vegetable Compound and hope others may find relief as I have slone from its use."—Miss N. J. Gov. Wood Reports on Cuban Affairs and Brumbaugh on Porto Rican.

IBT THE NEW ASSOCIATED PRESS—A.M.1
CANTON (0...) Oct. 26.—President
McKinley is fully qualified to vote, having registered this morning.
Gov. Wood of Cuba reached Canton
at 10 o'clock today. He was met as
the station by Cortelyou, secretary to
the President, and taken direct to the
McKinley frome. He will remain until
11 o'clock this evening. Gov. Wood came
to confer with the President and Becretary of War Root on matters connected with Cuban offices. He was secompanied by Perfecto Liciesto, Secretary of Agriculture of Cuba, and his
side-de-camp, Lieut. Frank Roos.

Another caller at the McKinley home
was M. G. Brumbaugh, Commissioner
of Education for Porto Rico. He came
primarily to deliver the President bemessage from Gov. Allen, the nature
of which has not been made public.
He also made a yerbal report on affallrs of the island and on educational
affairs. Brumbaugh said conditions in
Porto Rico are steadily improving.
There is much interest and considerable excitement over the first election.
The contest has developed lines similar to those in the United States. The
Republican party is in full harmony
with President McKinley and for

is hoped to secure for this-purpse what remains of the \$2,00,000 appropriated for Porto Rico before the tariff bill was enacted. The government of Porto Rico is as solvent as any bank, he said, and no debt is contracted until the money is available to meet it. The people as a class are tager for education, and are accepting all the opportunities afforded them. The duties on imports from the United States for the first week of October exceeded the total trade of the United States with the island for a whole year under Spanish dominion, showing the opening of an important market.

National Chairman Hanna had a conference with the President private car. They separated at Massillon, the President going to a wedding and Senator Hanna coming on to Canton, where, after a conference with State Chairman Dick, he left for Chicago at \$150 o'clock.

KIPLING LEAVES NEW ENGLAND.

The Mother Country Has More Charms for Him Than His Vermont Home.

BRATTLEBORO (Vt.,) Oct. 28.—
(Exclusive Dispatch.) Rudyard Kipling has offered for sale a country place here. He has evidently abandoned his American abiding-place in favor of Rottingdean, England. Ever since the death of his daughter in New York, the English author has spent little time at his place in Brattlebore. Kipling undoubtedly intended to make his permanent home at Brattleboro. The country was familiar to him when he built his house here, three years ago. He had visited Vermont with his wife's people, and had picked out thirteen acres of rolling country which reminded him somewhat of the hill country is India. So he made a house, a long, shingled structure, with a wide veranda at one end, as nearly like an Indian bungalow es American climate and American building would permit, and gave it the Indian name "Naulahka." This house Kipling has left just as he lived in it. From this, one may assume that he did not expect to leave it for good when he went awar. STRAMSHIPS TO HAWAII.

NEW COLD-STORAGE SERVICE.

INF DIRECT WIRE TO THE TIMES.

TACOMA (Wash.,) Oct. M.—(Exclusive Dispatch.) New monthly steamship service between Tacoma and Homolulu will be inaugurated next month by the Pacific Cold. Storage Company of this city. Steamer Elihu Thomson, now due from Nome. will leave here November 15 on her first trip. The company has ordered Crawford. & Reid, the ship-builders at Old Tacoma, to construct for them a new wooden steamer of 2000 tons capacity. As the Etihu Thompson already has a large cold storage capacity, this branch of the business will be one of the main features of the new service.

Efforts were made to find a second steamer on the Atlantic Coast, but the search being unsuccessful, it was decided to build the steamer needed. The company has carefully investigated Hawaiian traffic, finding a large demand by sound shippers for better facilities.

"The effect on the nervous system was finally alarming and my general health greatly impaired. I had dyapopola, serious heart difficulty and issomnia. When I would lie down I would almost suffects. My dooter assured me it was due to the action of caffeine (which is the active principle of coffee) on the heart.

"I persisted in its use, however, and suffered along just as drunkards do. One day when I was feeling unusually depressed a friend whom I met looked me over and said: "Now, isoch here, old man, I believe I know exactly what's the matter with you. You are a coffee fend and it's killing you. I want to tell you my experience. I drank coffee and it ruined my nerves, affected my heart, and made me a sallow, billomoid man, but through a friend who had been similarly afflieted I found a blessed relief and want to tell you about it. THE CHINESE SITUATION.

The situation of affairs in China is practically unchanged. Wu Ting Fang, Chinese Minister at Washington, has received a dispatch stating that Kiang Yi, a thember of the Cabinet with Hung Lu, and one of the intense anti-foreign leaders whose punishment was demanded by the powers, died of illness on October 18; also that Yu Hsien, late Governor of Shansi, who is said to have been responsible for the death of many missionaries, has committed suicide by swallowing gold leaf. Minister Wu regards this ect as a sign of the disfavor they received from the throne,

A dispatch has been received in Paris from Peking, dated October 24, in which it is stated that Prince Ching and Li Hung Chang have communicated to the legations the imperial decree, in eccordance with which the princes and ministers responsible for the recent trouble in China are to be punished according to the respective degrees of cuipability. The Emperor recognizes the fact that Gen. Tung Fah Siang has committed serious offenses, and he charges Prince Ching and Li Hung Chang to fix the penalties to be imposed on those for whom the Europeans demand punishment. The decree states that Chinese plenipotentiaries have aiready inflicted punishment upon some princes. These plenipotentiaries assure the Emperor of the death of Kiang Yu. these observations were intended by

of thousands. But such was not his intent. Mr. Bryan is too busy to talk
about "the rights of citisenship" and

a mob more respectable than that of the law.

Those Americans who have deep-seated faith in the institutions of their country and have the conviction that nothing will happen calculated to impair the vitality of those institutions cannot but be confident that McKinley will be elected and the dangerous candidate of the Democracy taste the bitterness of defeat once more. They would be more pleased if they had a satisfying assurance that, this Nebraska "Man of Wrath" will not be the candidate of his party in 1904. He has said he will not be if elected this year. He has not said he will not be if defeated.—[Chicago Tribune.

BRYAN PEARLESS, IS HE?

BRYAN FEARLESS, IS HE?

If M. R. BRYAN," says a Democratic organ, "frankty and feariessly discusses all matters of political interest." Does be, indeed? When and where did he discuss either frankly or fearlessly the disfranchisement of colored voters in the Southern States? asks the Kansas City Journal. When and where did he say frankly and fearlessly whether or not he would, if elected, pay the government's coin obligation in sliver? When and where did he explain how the Filipinos could be given a "stable government" whether they desired it or not, without violating his theory of the Declaration of Independence? When and where has he frankly and fearlessly discussed his campaign predictions of four years ago?—[Oswego Times.] A PROMINENT citisen whose name is known throughout and beyond Indiana, asked a carpenter whom he knows how he was getting on. His reply was that he had had all the employment he could ask for at good wages the past three years, and he volunteered the remark that full employment was quite general and the times were much better now than they were before 1897. "If this is the case," asked the citisen, "why are so many mechanics reported to be following Mr. Bryan again?" Thereupon the carpenter repiled: "I voted for Mr. Bryan in 1896; I was led to believe that it was the best thing I could do for myself and family. Before that election I had seen dreary days. I could get little work, buy wife and children were in need, and I was forced to ask friends for temporary relief. Since the summer of 1897 I have had full employment, and I am able to support my family in comfort. During 1894 I got a day's work now and then, but I had little to take in my dinner pail. Now I have a square meal and my children do not go to school huggy. This came after the election of McKinley. I have come to think that it will stay if McKinley is elected again. At any rate I am going to vote for him, and others like myself whom I know will do the same thing. We'd be fools if we didn't."

This was an actual, conversation. Anti-imperialism, militarism and trusts will not move that class of voters. No tomfoolery about forsaking the Declaration of Independence will begulle such voters. They know two things: For three years before the election of McKinley the wolf had his nose in the door of their abode, wife and children were in rasp and were often hungry, while the bread-winner walked the streets in vain for employment. This is one thing they know; the other thing is that with McKinley came full employment, good wages mean all that good wages mean to honorable men who have families. Thousands of such men are for McKinley in 1908 who were for Bryan in 1894. Those who think otherwise will find themselves mistaken before the middle of November.—[Ind

New Prices for Men's Hose.

That the Coulter store is able to give more quality for the price in many cases is only the most natural and reasonable thing in the world. Instead of buying from jobbers and middle men we contract with the largest manufacturers direct. Instead of buying hose a dozen pairs of a kind, we measure our purchases by the case. Instead of keeping the manufacturer wait-ing sixty or ninety days for his money, we avail our-selves of his spot cash discounts and deal with him on an instant cash basis. Thus you will see the somewhat surprising prices which follow are only natural

Jacket and Suit Opportunities.

These days are rich in bargain chances if you are of a money-saving disposition. We are not aiming to make a dollar on jackets or suits—in fact our plan is to lose as judiciously as possible. By that we mean to say that we are trying to give you suits and jackets at a price that will make you quick buyers. We are doing this because these departments are to be discontinued and we want the room as soon as possible to make money selling other merchandise.

States against 190 last year, and 28 in Canada, against 27 last year.

Bradstreet's Review.

NEW YORK, Oct. 26.—Bradstreet's tomorrow will say that, despite some irresularities, growing out of the unseasonable weather conditions, heavy price changes in leading stanles, or increased conservatism in some traders as the election approaches, the general business situation as a whole is—couraging, and new elements or manifestations of strength appear from timoto time. Perhaps the most notable feature of the week is found in the industrial situation, which has been distinctly improved by the apparently official and final action taken toward settling the anthracite coal miners strike. In view of the fact that most miners have obtained increased wages, the effect on business in the producing regions can hardly be otherwise than benefitial, while the trade at large must reap benefits from the return to normal conditions. Other lines of trade which show improvement are those of shoes, leather and kindred products at the East, which are reaping the benefit of the better distribution in the country at large and rather more than an average business has been done in wool at the East, with holders more inclined to demand full prices for their products. The continued weakness of oction is an element of uncertainty in he goods trade, but the formal incident of the digestion of profits. The feestonal operators ventured to self-indicating showed the prefessional operators ventured to sust all provise profits The trade at large must result to the producing regions can hardly be otherwise than the producing regions can hardly be otherwise that the self-indication of the unsertance of the work of the digestion of profits The rational operators ventured to self-indication of the unsertance in the interest was called the profits The design of conservations of the profits The design of the digestion of profits The design of the profits The design of the profits The design of the digestion of profits The section of the interest was call

at large and rather more than an average businesis has been done in wool at the East, with holders more inclined to demand full prices for their products. The continued weakness of cotton is an element of uncertainty in the goods trade, but the firmness of these products, in the face of the 1½ cents decline in price, is a tribute to the strength of the market. The situation in cereals shows little change. A feature of the movement of produce to market at the present time, not heretofore noted this year, is the growing scarcity of cars reported west of the Mississippi. Sugar is lower than anticipated, and coffee is off on continued large receipts. The strength of demand for finished products of iron and steel, noted for some time past, finds reflection in an improved inquiry for the cruder forms at leading iron centers this week. Steel billets are reported \$2 higher at Chicago, while a similar advance is noted at Pittsburgh, and efforts to raise the level of Bessemer steel billets, are being debated. The claim that stocks are being steadily reduced is borne out by reports of several 1000-ton lots being moved at Pittsburgh and further West, and intimations that a still larger business has been arranged for on a conditional basis dependent upon the election results. While southern pig is unchanged at the South, a sharp cut in the same is noted at western markets. The lowering of coal prices, expected as a result of the ending of the strike, is expected to help the export trade in coal, which is, however, confronted with high freight rates. In spite of this, its claimed that 12,000 tons of bituminous coal have been sold for export to Mediterrancan ports. Wheat, including flour, shipments for the week aggregate 4,322,878 bushels, against 3,796,643, last week of 1899. From July 1 to date this season, wheat exports are 60,244,148 bushels, lagrainst 65,381,542 last season and 62,789,107 in 1894-1899. Business failures for the week in the United States number 181, as against 23 last week, 211 in this week a year ago, 21

CHICAGO, Oct. 26.—Edward Corrigan, the well-known turfman, who has arrived here, says:

"At my ranch in Sacramento, I have twenty-aix or twenty-seven youngsters which have yet to be broken in, and from these I expect to take baok to Engand six or eight of the best. I am anxious to get back to Engand in Pebruary and by the 1st of January I should be able to tell which are the best animals to take across for my second campaign.

"I am well satisfied with my first venture, finding the racing on the other side carried on in a high-class manner and the people connected with it the best.

"I found the people sportsmanlike and think the cry raised against American jockeys has been exagger-ated. As far as I have observed, the sportsmen over in England want caly what is right, The advent of the American jockey and American trainers on the English turt is slowly forcing the Britishers to change their methods."

Mrs. Lucy Leeton Wants Fifty Thousand Dollars from Senator Sullivan.

USY THE NEW ASSOCIATED PRESS—A.M.1
WASHINGTON, Oct. 26.—A suit for 250,000 damages for breach of promise against U. S. Senator William V. Suilivan of Mississippi was filed in the District of Cohumbia Supreme Court this afternoon by Mrs. Lucy Leeton of Oxford, Miss. The plaintiff in her affidavit alleges that she, "an unmarried woman, at the request of defendant, undertook and promised to marry him, and defendant undertook and promised to marry the plaintiff, which he, without cause or right, has refused to do."
The plaintiff to alms she met Senator Suilivan in 1895 in his law office at Oxford, he being employed to defend her brother-in-law, She claims he made protestations of affection for her, "and began by wiles and artifices to induce the plaintiff to accompany him on a journey to Chattanooga, Tenn." Plaintiff claims she refused to go with him, but allowed him to correspond with her. She was at that time married, but not living with her husband, Plain-

hand."

About December 1, 1895, the plaintiff, at the request of the detendant, went with him to New Orieans. In January, 1896, according to the affidavit filed today, the defendant placed plaintiff in Nelson's Business College at Memphis, paying her tuition and board. In May, 1897, he secured a divorce for her. The affidavit then alleges that, May 10 of that year, plaintiff and defendant lived together in Alexandria, Va. as Mr.

fildavit recites that the couple lived spether in Washington, and that the reedant finally notified plaintiff that e was not financially able to marry r. Also that plaintiff, hearing demands was ill, in June, 1900, came to ashington to see him and found him oming with a woman whom he had ought from Holly Springs, Mass. MEMPHIS (Tenn...) Oct. 26.—A special to the Commercial Appeal from Oxford, Misa., says: "Lucy Lecton, who brought a breach of promise suit sgainst Senator Sullivan in Washington today, was married fifteen years ago to Thomas Hyde, a carpenter of this county. Shortly after their marriage she and her husband moved to Temple, Tex., remaining there until about four years ago, when Mrs. Hyde returned to Oxford. Hyde sued for divorce in 1896, and she obtained the decision on other grounds. The divorce was granted, and Hyde still fives in this county."

Senator Sullivian today gave out the following statement: "This woman has no claim on me of any kind. While in Washington recently, an attempt was made by her and her abettors to extort money from me under threat of a suit, such as she has now brought. I declined to entertain such a proposition. Catholic Fair.

The Catholic Fair at Turner Hall closes tonight after a week of greater success than has attended any such function in this city in several years. The attendance has been large every night, and last night it was larger than usual. A musical programme was rendered in which a number of well-known musicals took part. This afternoon the operetta, "Enchanted." will be produced by the children of the Home of the Guardian Angel. This evening a music box valued at 38, will be auctioned, the price of each bid being 25 cents, and the instrument going to the last bidder. The financial returns from the fair will far exceed what those who originated it had expected.

"The end justifies the means." We have reduced prices for a purpose. It matters little to you why we have done so. It is wholly our affair in that respect. It is your business to get some of the bargains we offer. Every price is reduced exactly as we say in this announcement. We do not believe that all of the people want to be humbugged. Those who do will not find the opportunity here. The shoes advertised are all desirable. You will find them exactly as

Many hats at \$5.00 have the earmarks of cheap wholesale millinery stores located in New Your turn out thousands of hats of each style and kind. It is difficult for an ordinary millinery store duce a really good hat for \$5.00. The materials cost so much in small quantities that the protest than eaten up in the making. Such stores resort to wholesale trimmers of New York for their \$5.00 hats are different. We make them all in our fourth floor workroom, which are from our regular trimming department. There are milliners up there who are just as artistic and ful as any milliners in Los Angeles, and their best thoughts are put into \$5.00 hats. To nothing that sells at a higher price. We maintain an immense wholesale department, sell at throughout the entire Southwest. This enables us to buy materials for much less than an ordinary all these things combine to make our \$5.00 hats at least a third better in quality and ten times style than the average at that price. Many new ones will be shown for the first time today, creations.
